

# WRITING BEGETS WRITING

If You're stuck with a difficult scene  
Write it anyway  
Write it badly

Give those angry, self – critical feelings to a character  
in your script.  
If there isn't a likely candidate, event one

Neurotics are people who refuse to suffer

Bad work is the manure from which good work emerges

Bad writing – is as inevitable as the sun und the rain  
and just as important for growth

We've all written manure  
– it prepares the ground, nourishes the soil –  
it is part of the writer's foundation
